**i.DREAM ANNOUNCES ALL i.DREAM'S PRODUCTS ARE FULLY COMPATIBILITY WITH LATEST IPOD PLAYERS INCLUDING SECOND GENERATION IPOD NANO AND THE LATEST IPOD PLAYER SOFTWARE VERSION 1.2**

**- Innovative station for iPod, Distinguish-Design, Feature-Rich, All In-One "Made for iPod" System Features Radio, Alarm Clock, Sleep Timer, Full-Function Remote and Video Output, Detachable Speakers-**

**Hayward, California – Oct 5th, 2006** – i.Dream designs and manufactures of the most innovative, features riched, and trend leading "Made for iPod®" products, today announced the company has updated all products firmware for the comp ability to all latest iPod Players including second generation iPod Nano and the iPod Player software version 1.2 which is optional for iPod user to update for updated and improved iPod Player features.

Current products of dock, charge and play speaker systems with remote for iPod in the market may not fully compatible with latest iPod Players and/or the latest iPod player software version 1.2 which can be updated when connect to iTunes via PC. Certain features may not work on the remote control due to some changes in software version 1.2, a update on the product hardware firmware may be necessary for their respective manufacturer.

The i.Dream's products give the best value for price which outperform the same class competitors' product with richer features, superior audio quality, and distinguish design which make our products stand out the crowd. i.Dream's products are certified with "Made for iPod" by Apple assuring the high performance and quality standard of our product.
